

# Web Accessibility Evaluations Rubric

10 points total. Start with one point for submitting the assignment.

	Full Credit	Partial Credit	No Credit
<b>Tested three different websites</b>	Tested three websites and described multiple usability issues, and how these issues may impact users. (+3 points)	Tested fewer websites, or didn't describe findings adequately. (+1 or +2 points)	Not completed. (+0 points)
<b>Response to the prompt: "Based on the class's findings, do you think most websites are easily used by people with visual and/or motor impairments?"</b>	Response cites examples from the class's findings. Should explain that many websites have at least some usability issues. (+2 points)	Insufficiently detailed response, or not well-thought-out. (+1 point)	Not completed. (+0 points)
<b>Response to the prompt: "Why do you think things are this way?"</b>	Response may cite lack of awareness or placing a low priority on accessibility. Shouldn't emphasize lack of resources. (+2 points)	Insufficiently detailed response, or not well-thought-out. (+1 point)	Not completed. (+0 points)
<b>Response to the prompt: "What should be done to improve web accessibility?"</b>	Response may cite increased training for developers, greater enforcement of regulations by the government, or greater awareness by society at-large. (+2 points)	Insufficiently detailed response, or not well-thought-out. (+1 point)	Not completed. (+0 points)
